Objective:

Highly motivated second-year college student pursuing a B.Tech degree in Electrical and Electronics Engineering at Vellore Institute of Technology, Chennai. Eager to contribute my skills and knowledge in a professional setting while gaining valuable experience in the field.

Education:

Bachelor of Technology in Electrical and Electronics Engineering (Expected Graduation: 2026)

Vellore Institute of Technology, Chennai

Professional Experience:

1) **Social Media Head, IEEE Computer Society Club (May 2023 - Present)**

- Responsible for managing social media accounts, creating engaging content, and promoting club activities.
- Collaborate with team members to enhance online presence and increase member engagement.

2) **Management and Marketing Member, IEEE Computer Society Club (December 2022 - May 2023)**

- Assisted in organizing and promoting events related to computer science and technology.
- Contributed to the club's marketing strategies to attract a larger audience.

3) **Management and Marketing Team Member, HackClub Club, Vellore Institute of Technology (December 2022 - Present)**

- Actively involved in managing and marketing club events and initiatives.
- Collaborated with team members to plan and execute successful workshops and hackathons.

Volunteer Experience:

1) **CyberX Hackathon Organizing Board, Vellore Institute of Technology, Chennai**

- Contributed to the organization and execution of an innovative hackathon focused on Cyber Security.
- Assisted in fostering development of tools and technology to serve society.

2) **IEEE YESIST12-2023 Remote Volunteer**

- Volunteering remotely for the annual international student symposium organized by IEEE.
- Assisting with technical paper presentations, poster sessions, and networking opportunities.

Certifications:

- Python 3.4.3 Training, Indian Institute of Technology Bombay (IIT Bombay)
- MATLAB Onramp Course and MATLAB Fundamental Course

- Certificate of Appreciation from Devtown Company for continued support in growing their community
- ICT Tech Update Seminar Attendance Certificate on Git, Apps, QC, Mobility Engineer & Data Scientist

Personal Projects:

- Working On a versatile Health AI Chatbot with features such as a Symptom Checker, Health Information support, Nutrition Advisor, and Medication Q&A.
- Working on a Data Science Project with my team on Human Activity Recognition using Multimodal Data.
- Working as a frontend developer on a confidential project focused on a Tech News Aggregator Website.
